

Proposed India Chiller Energy Efficiency Improvement Program

Draft Environment Management Plan (EMP)

India Chiller Energy Efficiency Improvement Program of the World Bank, aims at facilitating accelerated replacement of energy inefficient & mainly chloro fluoro carbon (CFC) based chiller units in India with energy efficient non-CFC ones through suitable financial incentives like grant subsidy or carbon credits (based on Clean Development Mechanism) to the prospective chiller owners at their choice.

The draft Environment Management Plan (EMP) in this matter can be accessed by clicking on the following link

[Chillers Energy Efficiency Project - Environment Management Plan](#) (Please click here)

This draft EMP is being provided to invite comments/feedback regarding its applicability, feasibility etc. from the chiller manufacturers and chiller owners on the same. You are cordially requested to submit your comments/feedback to the following officers in this matter:

Name	Email id
Mr. Yashpal Gupta, DGM	yashpal.gupta@idbi.co.in
Mr. B D Save, DGM	bd.save@idbi.co.in
Mr. Kapil Vaghela, Manager	kapil.vaghela@idbi.co.in

You are requested to note that IDBI Bank’s proposed financial intermediation/coordinating entity is subject to signing of the necessary agreements between IDBI Bank and World Bank for this project, and IDBI Bank or any of its respective associates, or any of their respective directors, employees or advisors shall not be liable for any loss incurred by anyone for any action based on this announcement in case the above agreements are not signed for any reason whatsoever.
